APPENDIX E

FILENAME EXTENSIONS

Extension	Attribute
BAK	Backup file
BAT	BATCH
CBL	COBOL source file
CIL	Core Image Library
CMD	Command file
CRF	Input to cross-referencing program
DAT	DATA file for FORTRAN job
FTN	FORTRAN source file
LCL	Linked core image library
LDA	Load module, Absolute
LOG	Logging file
LST	Listing file
MAC	MACRO assembler source file
MAP	MAP file
OBJ	Object module
OVR	Overlay
PAL	PAL assembler source file
ROL	Reserved for ROLLIN program
RPG	RPG source file
STB	Symbol Table (LINK output)
TMP	Temporary scratch file

When using the File Utility Package (PIP), file extensions do not imply a specific transfer mode; e.g., OBJ transfers a file in unformatted binary, not formatted binary.
