

**INTRODUCTION**

The Model Upgrade Purchase Price List provides the charges for upgrades and conversions. Machine types withdrawn from marketing are included if model changes are still being made.

**ORGANIZATION**

The list is segmented by machine type. Each valid model to model change will be reflected in a "from..." "to..." format with the price. In some cases a group of model to model changes such as "J" to "K", will be shown. A machine type may be listed twice; once under conversions and once under upgrades.

Footnotes will be identified after each machine type, if applicable.

**LEGEND FOR MODEL UPGRADE PURCHASE PRICE LIST**

---

XXXX	Model Conversion 01C to 11C	Price \$5,120	Each machine type (XXXX) eligible for a model conversion will be listed in this manner.
------	--------------------------------	------------------	---

XXXX +	Model Upgrade 002 to 003	Purchase Price \$50,000 +	Each machine type (XXXX) eligible for a model upgrade will be listed in this manner.
--------	-----------------------------	------------------------------	--

A plus sign (+) after the price or machine type indicates that "Purchased parts removed or replaced become the property of IBM and must be returned".

MODEL UPGRADE PURCHASE PRICES
