# DOCUMENTATION INTRODUCTION

## 1. OPERATING SYSTEMS:

- Aegis: SR9.7.1 Starter Sets; Advanced Sets.
- Domain/IX: SR9.7.1 Starter Sets; Advanced Sets.
- Domain/OS: SR10 or later

You can purchase SR10 documentation for Domain/OS for a general user, system administrator or programmer. To decide which sets to purchase, consider the environment in which you will run: Aegis, BSD, or SysV. The Domain/OS building block's table, following, shows the sets and the environments they support.

**\*NOTE:** SR9 Documentation manuals will be discontinued in February 1992. Certain SR9 manuals when ordered now may be shipped as a photo copy due to stocking levels.

## 2. DOCUMENTATION PACKAGES:

Created for user convenience, these packages offer complete literature libraries for many product lines and are priced at approximately 20% off individual list prices.

## 3. OPTIONAL SOFTWARE PRODUCTS:

Most documentation is now designed for application across all software release types. However, those documents that contain information specific to one software release are noted with a suffix:

- A would indicate SR9
- B would indicate SR10
- C would indicate both SR9 & SR10
- D would indicate SR10.2

## 4. HARDWARE and PERIPHERALS:

Hardware and service manuals are not tied to software releases. These models will include a -0 suffix.

## **SOFTWARE REPLACEMENT MEDIA INTRODUCTION**

The following price list is for customers needing additional copies of software programs which they are licensed to use. Licenses must be purchased from local sales representatives.

Replacement media for DOMAIN software may be purchased when the following prerequisites have been met:

- The designated node, DSP, or DFS must be licensed to run the latest version of the desired software program contained on the media.
- Apollo/Hewlett-Packard reserves the right to request proof of purchase for the original software license or Basic Software Update License (BSU).
- Replacement media for DOMAIN software is non-refundable.
- Hard copy P.O. must be received with appropriate Terms and Conditions.
- Replacement media for AEGIS (SR9 or earlier) and DOMAIN/IX is no longer available.
- Product pricing and availability are subject to change without notice.
