RTE-IVB Software
Numbering Catalog

Software Revision Code 2026

HEWLETT PACKARD

This catalog provides a list of the 92068A software modules and the media on which the software modules are distributed. The purpose of the list is to define the software modules currently supported with the product and to indicate the part number of different media on which these modules reside (if applicable).

You will find several uses for this catalog. For example, you can use it to:

- order replacement software on the media type you need.
- find the software residing on any media type.
- determine the names of files on the media's directory.
- determine the date code of the modules.
- determine part numbers of modules.

This catalog contains a listing of the modules by file name. The column headings of the list define:

MODULE   The unique file name of the software module. The file names are the names used in the file directory of any medium.

DESCRIPTION   A concise definition of the software module.

DATE CODE   The software revision of the module.

PART NUMBER   The part number of the software module.

MEDIA P/N   The part numbers of the applicable media on which the software modules reside.

92068-13001, if you have ordered the product on a 7900 disc cartridge.

92068-13101, if you have ordered the product on a 7905/7906 disc cartridge.

92068-13102, if you have ordered the product on a 7906H disc cartridge.

92068-13201, if you have ordered the product on a 7920 disc cartridge.

92068-13203, if you have ordered the product on a 7920H disc cartridge.

92068-13202, if you have ordered the product on a 7925 disc cartridge.

92068-13204, if you have ordered the product on a 7925H disc cartridge.

92068-13501, if you have ordered the 7900 master software disc on an 800 BPI 9-track magnetic tape.

92068-13601, if you have ordered the 7900 master software disc on a 1600 BPI 9-track magnetic tape.
