

Contents of Volume 28, 1989

Number One

Large systems and Enterprise Systems Architecture <i>B. R. Aken, Jr.</i>	4
Enterprise Systems Architecture/370: An architecture for multiple virtual space access and authorization <i>C. A. Scalzi, A. G. Ganek, and R. J. Schmalz</i>	15
Concepts of Enterprise Systems Architecture/370 <i>K. E. Plambeck</i>	39
Storage hierarchies <i>E. I. Cohen, G. M. King, and J. T. Brady</i>	62
System-managed storage <i>J. P. Gelb</i>	77
Multiple operating systems on one processor complex <i>T. L. Borden, J. P. Hennessy, and J. W. Rymarczyk</i>	104
The facilities and evolution of MVS/ESA <i>C. E. Clark</i>	124
MVS data services <i>K. G. Rubsam</i>	151
VM/XA SP2 minidisk <i>G. P. Bozman</i>	165
VM/XA storage management <i>G. O. Blandy and S. R. Newson</i>	175

Number Two

Evolution of the DASD storage control <i>C. P. Grossman</i>	196
Local-area distributed systems <i>R. C. Summers</i>	227
System-independent file management and distribution services <i>J. C. Ashfield and D. B. Cybrynski</i>	241
Managing changes in SNA networks <i>C. P. Ballard, L. Farfara, and B. J. Heldke</i>	260
REXX on TSO/E <i>G. E. Hoernes</i>	274
Program understanding: Challenge for the 1990s <i>T. A. Corbi</i>	294
DS-Viewer—An interactive graphical data structure presentation facility <i>D. P. Pazel</i>	307
A program understanding support environment <i>L. Cleveland</i>	324
Technical note—Engineering and Scientific Subroutine Library Release 3 for IBM ES/3090 vector processors <i>R. C. Agarwal, F. G. Gustavson, J. McComb, and S. Schmidt</i>	345

Number Three

System overview of the Application System/400 <i>D. L. Schleicher and R. L. Taylor</i>	360
---	-----

Design, test, and validation of the Application System/400 through early user involvement <i>B. J. Pine II</i>	376
A new development rhythm for AS/400 software <i>R. A. Sulack, R. J. Lindner, and D. N. Dietz</i>	386
Application System/400 performance characteristics <i>B. E. Clark and M. J. Corrigan</i>	407
The Application System/400 help facility—design philosophy and considerations <i>D. A. Charland</i>	424
Design rationale of the AS/400 interface <i>J. H. Botterill</i>	443
Object-oriented programming <i>R. P. Ten Dyke and J. C. Kunz</i>	465
A message management system for personal computers <i>L. d'Arielli</i>	479

Number Four

History and contributions of the IBM Scientific Centers <i>H. G. Kolsky and R. A. MacKinnon</i>	502
Visual programming: Perspectives and approaches <i>N. C. Shu</i>	525
The WINSOM solid modeller and its application to data visualization <i>J. M. Burridge, B. M. Collins, B. N. Galton, A. R. Halbert, T. R. Heywood, W. H. Latham, R. W. Phippen, P. Quarendon, P. Reilly, M. W. Ricketts, J. Simmons, S. J. P. Todd, A. G. N. Walter, and J. R. Woodwark</i>	548
Data visualization in archaeology <i>P. Reilly</i>	569
GARDEN—An integrated and evolving environment for ULSI/VLSI CAD applications <i>A. H. V. de Lima, R. C. B. Martins, R. Stern, and L. M. F. Carneiro</i>	580
An Arabic morphological system <i>T. A. El-Sadany and M. A. Hashish</i>	600
Designing molecules and crystals by computer <i>A. Koide</i>	613
S*P*A*R*K: A knowledge-based system for identifying competitive uses of information technology <i>P. Gongla, G. Sakamoto, A. Back-Hock, P. Goldweic, L. Ramos, R. C. Sprows, and C.-K. Kim</i>	628
Concurrent computing by sequential staging of tasks <i>J. Gazdag and H.-H. Wang</i>	646
Advanced Information Management (AIM): Advanced database technology for integrated applications <i>P. Dadam and V. Linnemann</i>	661
Technical note—Computer sculpture <i>W. H. Latham and S. J. P. Todd</i>	682
